

Remarks/Arguments:

By the Preliminary Amendment, the specification and the Abstract have been amended to place the application in better condition for examination and allowance. Claims 1 through 16 have been amended and claims 17 through 23 have been added to avoid multiple dependent claims, remove element numbers and otherwise comply with the requirements and standards of U.S. Patent and Trademark Office practice. Entry of this Preliminary Amendment and issuance of a first office action on the merits are requested.

Respectfully submitted,

Daniel N. Calder, Reg. No. 27,424
